NEW AGE TERMS AND DEFINITIONS

NEW AGE: A departure from God's moral code to be replaced with Satan's unmoral code. The dawning of the 'AGE OF AQUARIUS'. No conscience, no wrong, no limits, no accountability. "Utopia". New World Order

REINCARNATION: Returning after death into a new form determined by a person's karma.

KARMA: One's good or bad actions. New Agers believe that reincarnation gives us a chance to improve our karma until we reach perfection. Thus a belief that animals, trees, etc. may really be a person in a different form. India's sacred cows are an example of this.

YOGA ~ MEDITATION: The practice of focusing within to find one's higher self for guidance and counseling.

PANTHEISM: Everything is God. We are God. Creation is God.

CHANNELING: Making contact with the dead. Contacting spirit guides.
(Ramtha is J.Z. Knight's spirit guide)

HOLISTIC MEDICINE: (Metaphysical health) Healthcare that involves the whole person both physical and spiritual. People are viewed more as "energy" than matter thus focusing more on the spiritual than physical. Some of the practices used are: acupressure, acupuncture, aromatherapy, biofeedback, channeling, polarity therapy, reflexology, psychic healing, transcendental meditation, visualization, hypnosis, Shamanism (American Indian rituals), iridology (study of the pupil of the eye).

ASTROLOGY: The belief that the stars cause things to happen. It is believed that the Chaldeans and Babylonians began recording observations of the stars around 3000 B.C. What began as a science gradually deteriorated into a religion and civilizations around the Persian Gulf began to worship them as supernatural beings. **HOROSCOPES** now appear in more than 1400 daily newspapers. A person's future is plotted by the position of the stars and planets at the time of birth. The resulting chart is a horoscope. Astrologers

(Lesson 3 - Terms & Definitions continued)

say "The stars don't only forecast our future but they also guide us to the coming of a new Spiritual Master."

EARTH WORSHIP: Satan wants us to worship the creation rather than the Creator. Thus the "environmental movement". If he can get man to believe the earth itself is sacred, then our worship is directed to Mother Earth and away from our Heavenly Father.

RELATIVISM: Promotes the idea that there are no absolutes regarding truth or morality. No right or wrong in and of itself. If it pleases me or feels good to me, then it is right for me even though it may hurt others.

ESOTERICISM: The belief that one has received special knowledge understood by only a few. Theology is replaced with an "experience" transcending reality. Some may call it an "altered state of consciousness". Can also involve the use of pyramids, crystals, and meditation.

KARATE: An oriental practice of focusing within one's self to acquire supernatural strength.

OBJECT LESSON

Needed: A book of matches

What do I have here?

Do you know what it says on almost every book of matches? The warning:
CLOSE COVER BEFORE STRIKING. Why do you think that is written there?

Over the years, since matches have been made in books like this, people have had accidents and burned their fingers or hands because they failed to obey the warning. It's there for a reason: if you don't close the cover, the one match you lit may flare up and ignite the whole book, and burn your hand. The makers of the matchbooks put the warning there for your safety.

Adam and Eve had a commandment, a warning from God, not to eat of the Tree of Knowledge of Good and Evil. God had a reason for that warning. But they chose to disobey the warning, and they sinned (they were burned!).

We have God's commandments written down. They are there for a reason: to prevent us from being hurt by sin. The most awful hurt of all is separation from God.
